

# ILLUMINATE THE MOMENTS

Updated 07/21

 **PROGRESS**  
LIGHTING™

---

Lighting helps tell a story, whether it's setting the mood or enjoying a special moment. These occasions are meaningful, expressive, and shared with those we care about most. Let Progress be your guide in illuminating these spaces into special places.

## Basically Boho

*with Eliza*

Bohemian style is perfect for non-conformists who shy away from rigid design rules, as they use their unique tastes to create their space. A simpler aesthetic is trending in Bohemian design. Use a minimalist approach when it comes to combining elements and allow patterned décor to add a pop of color. Hanging planters and potted greenery can serve as perfect additions to a Bohemian space, while

enhancing character to any room. Add in rugs, pillows and furniture made with soft, lush materials and textures, to create a cozy atmosphere and help family, friends and guests feel at home.

"I'm a big fan of mixing metals. If you want to introduce a second finish into a room for plumbing or cabinet hardware, using mixed metal lighting is a great way to coordinate it,"

## Serenely Simple Transitional with Colleen

The Transitional home maintains the warmth of Traditional with the brightness of Contemporary trends. Simple silhouettes are ideal for transitional furnishings. Furniture pieces have crisp profiles and straightforward style, cleverly combining curves with straight lines. Tone-on-tone palettes and warm neutrals like beige, ivory and tan are ideal for a luxurious Transitional space.

Minimal use of vivid color creates a serene atmosphere. Textured materials such as leather, burlap, tweed and cotton are incorporated throughout different areas.

Sophisticated simplicity is personified in the Seneca collection. Within its open cage design the candelabra lights seem to float in midair, brought down to earth only by its simple base. Graceful lines radiate downwards for an unexpected, upside-down twist on traditional lighting design, making Seneca ideal for luxurious Transitional settings, while the overall, clean and modern look adds polished flair to Modern Farmhouse interiors.

An inner light cluster appears to float inside a geometric outer cage. The frame is designed to dramatically surround each fixture, presenting depth, dimension and beauty. Mini-pendant and flush mount versions feature a white silk shade. The exaggerated scale and elegant accents are suitable for Modern and Luxury design styles. A Black finish is paired with Vintage Gold accents while the Silver Ridge finish features Polished Nickel accents.

# Less is More Impactful

---

1

3

---

Old becomes new again when a traditional dining room is enhanced with airy details.

1

Provide a youthful balance to traditional furniture by choosing graceful open cage lighting and wall sconces in a fresh mixed metal finish.

2

Use paler hues not only on the walls but on the classically styled dining room set to showcase its curved forms and contribute a modern flair to the setting.

3

Remember that less is more and pare down on accessories to make a bigger impact in a room.

## Mix Modern & Natural Styles

Modern and rustic have never looked so good together. Take a cue from the artful placement of the asymmetrically designed Rainey chandelier over the organic shape of a rough-hewn table-top and bench. Use a neutral color palette on the cabinets and walls to lend a sleek look, but be sure to add details such as pairing textured fabric on the otherwise modern style of the dining chairs to keep the look from becoming cold. Finish with undercabinet lighting to cast the perfect amount of light on countertop tasks.

## Reflect with Sparkle & Shine

All white is just right when it is coupled with a polished wooden table and floorboards to ground the look. Make the most of a small dining area by using mirrors to reflect light and open up the space. Use a chandelier like Caress as a focal point, whose water glass shades add rich texture and playful reflections from the striking mirrored wall.

## Warm Wood Adds Comfort & Style

Reclaimed wood takes center stage in an open concept space. Wood acts as a warming element and this rustic kitchen vent hood melds together industrial metals, neutral wall color and a gray-blue undertone of the Shaker-style cabinets into a natural, organic look.

Choose lighting that delivers a punch, but doesn't overwhelm the space. The large Equinox chandelier brings a crisp and clean, yet industrial feel that gives overall balance to the area. A trio of round Chronicle pendants over the island provides contrast to the sea of rectangular shapes furnished by the cabinets, subway tile, paneled kitchen island detail and the oven hood.

## In Perfect Balance

Mix it up in a formal dining room by placing two upholstered armchairs at the head and foot of the table, disrupting the scale but still bringing a sense of balance to the room. Beige is anything but boring in a color scheme that incorporates light colors using fun wall art and curvy chairs. The Winslett chandelier adds to the room's charm with its perfectly imperfect seeded glass shades and sweeping arms.

# Sleep in Sweet Serenity

---

3

1

---

Serenity rules when a monochromatic color scheme is layered with tons of texture.

1

Live in a light palette with deep pops of navy blue and introduce texture through decorative items curated in soft shades of gray and blue.

2

Make crisp white bedding truly inviting by layering piles of pillows against a soft upholstered headboard, then toss a throw across the foot for a luxurious welcome.

3

Finish the look with the elegant Bowman chandelier to shed a soft glow from chiseled glass shades atop gently sweeping arms.

## Make it Cozy and Inviting

A rustic kitchen island offers a cozy, warm and inviting contrast to the refined look of classic floor-to-ceiling white cabinets. Make the island a true room divider by building it in a U-shape that follows the flow of the hallway. Compliment the island's weathered barnboard base with geometric pendants like Briarwood, which features a barn-door-inspired, X-brace design and faux wood-painted frame. Pull sleek bar chairs up to the island to add a touch of sophistication while keeping the rustic, comfortable feel.

## Go For A Seamless Flow

It's all about flow in an open concept home, and the number one way to achieve that is to use the same flooring throughout. Stick to a cohesive color scheme on the walls to continue the seamless look throughout the space. Next, repeat favorite elements, like the rich wood grain texture of the mantel that is seen again in the circular bands of the Gulliver linear chandelier and eccentric dining chairs which complement the elongated shape of the fixture. Finally, tie the space together by using calm, neutral tones throughout the furnishings in the living area.

## Focus on Wow

When designing your kitchen, think about which wow factor to focus on.

1

A Modern Farmhouse look is complete when the choice is made to go with bold lighting against a clean, neutral background.

2

The iron mesh shade and painted wood trim of the Tilley pendants join together the kitchen's farmhouse-style.

3

Open shelving and the kitchen vent hood finish the look with symmetry and harmony.

A trend in home décor is the repurposing of antique pieces. Calhoun playfully follows this trend with an apothecary style clear glass diffuser held in place with a mechanical latch from a spice container. A glass shade showcases a thickened profile to create a vintage-style surface for a classic handmade appearance. The vintage design is a perfect complement to several décor styles including the popular Farmhouse trend.

## Be Ingeniously Industrial

A canvas of exposed brick walls and dark metal-paned windows brings interesting visual and textural elements to the clean Industrial space. Use metal and wood elements throughout to play up the minimal yet rugged vibe. Since utility and function are cornerstones of the warehouse look, place an ultra-functional pendant like Calhoun center stage. With its unique, adjustable design, Calhoun can be installed several ways for three different, personalized custom looks.

## The New Farmhouse Fresh

*with David*

Ideal for the homeowner who loves to combine vintage pieces and weathered furnishings to create interiors that showcase antique charm. Farmhouse style represents the simplicity and common sense functionality of country living, while also incorporating vintage accents. Whites and other soft neutrals work well with this style. Add in weathered wood and distressed décor to tie in the color palette and overall

aesthetic. Choose darker elements to create contrast in these soft neutral spaces. Consider dark chairs, bold lighting fixtures and metal or wooden signage.

## A Group Picture Worth Taking

---

Using canopies are a game-changer when it comes to adding personality to your dining room.

1

Line classic-styled pendants above your dining table for a clean design. Multiple pendants are great solutions for a long table, to extend illumination to all areas of the room.

2

A neutral color palette in furniture and decoration adds refinement to a transitional style dining room while keeping an inviting ambiance.

3

Mix and match fixtures in the same collection, like these Latrobe pendants, for character and interest.

# Tre

Tre is a series of classic metal shade pendants with an updated combination of finishes and features. A tri-arm support adds a sense of architectural and industrial detailing, while the open-top shade allows for both downward and upward illumination. # Pendant and Mini-Pendant Accessories

## Socket Collar Tool

The socket collar tool provides extra leverage and eliminates a loose fit when installing glass shades. Working like a wrench, the socket collar tool extends into the shade and tightens the socket ring, securing the shade in place, and can reverse to loosen the ring to remove the shade. This accessory can be used on a variety of fixtures, including chandeliers, mini-pendants, sconces and wall brackets.

## A Touch of Glam

*with Kelsey*

Luxe is a modern take on luxury interior design that incorporates sleek, sophisticated details, gorgeous materials, and statement décor for interiors that exude glamour. It is opulent without being over the top. Rich fabrics, glass and lustrous metallic finishes are balanced throughout the design elements for a refined yet comfortable luxurious look. Classic furniture lines are paired with a sophisticated color palette. Gold,

chrome and silver finishes are mixed with crystal in lighting and accessories to offer a light and airy feel, for a space that is ultimately inviting and comfortable.

## Modernly Minimalism

with James

Modern interiors showcase sleek design through the use of neutrals, a minimalism approach, and the use of glass décor and technology. Take advantage of spaces with wide windows and use glass in other details such as countertops and furniture. This creates a sleek design for interior spaces. Integrate new innovations into a home's décor by adding elements, such as voice activated devices and remote

controlled light dimmers. To accentuate a Modern color palette, stick to neutral shades, as well as an overall minimalistic design to create this look.

## Easy, Breezy, Coastal

*with David*

Bring your home right to the ocean side with beach-inspired accents, organic furnishings and an overall relaxed feel. Designers often create a relaxed and open environment with soft throw blankets, pillows, cozy rugs and cushioned furniture to complete the Coastal look. Focus on an all-white color palette for your coastal inspired home, while incorporating in soft beachy hues to complement the look.

When it comes to selecting materials for flooring, décor and furniture, seek out dark or weathered wood pieces to emulate a seaside environment nestled nicely by the shore.

## Add Timeless Comfort

Timeless Farmhouse style can take an industrial turn when modern updates are added to the mix. Combine key Farmhouse style icons of comfortable furniture, shiplap walls and a light and fresh color scheme with industrial touches like the pair of Gauge wire-framed wall sconces installed above the stone fireplace. Let sunlight stream through unadorned windows to create a bright and cheerful space.

## A New Take on an Old Classic with Kyndra

New Traditional spaces are timeless with elegant additions that offer but a little fun and youthfulness to keep the design fresh. Clean, uncluttered spaces make a significant style impact. Add approachable touches, like furniture with sleeker forms, to what used to be formal rooms. Feel free to mix and match different finishes such as light and dark wood stains, paint, mirror, metal and leather. Try lighting that has mixed metal finishes or fixtures that are new takes

on classic silhouettes. Light, airy colors accented with a pop of color help make the New Traditional spaces feel open and spacious rather than cramped, as do windows that are uncovered or covered minimally with simpler treatments.

## Take Farmhouse Up A Notch

Contemporary Craftsman meets Farmhouse style when a home's exterior features wood cladding, a covered front porch, and gabled rooflines.

1

Add exposed rafter detailing along the porch and dormer eaves for an authentic Craftsman touch.

2

Bright blue doors and pottery make entryways a welcoming focal point.

3

The Haslett hanging lantern and wall lantern at the doors are beacons of simple and classic style.

P540032-020

Inspired by the warmth and beauty of hammered copper home accents, Englewood's design displays elements of rustic craftsmanship. Available in Antique Bronze, Black or Antique Pewter, the inside of the shade features a metallic finish, offering higher illumination reflection. Antique Bronze and Black finishes feature a copper inside shade, while the Antique Pewter finish is paired with a metallic silver inner shade. The post top fixture adds the finishing touch to outdoor settings, giving eye-catching appeal to Farmhouse and cottage Rustic homes and is Dark Sky compliant.

## Homage to Days Past

Rustic Farmhouse style is a nod to days gone by. To achieve this look, use an earthy color palette accessorized with furnishings handcrafted from sturdy materials like distressed wood and vintage iron. Add lighting that hints of times past, like the Whisp chandelier with its sweeping metal arms and candelabra lights. A pair of Callahan wall sconces has the feel of an age-worn lantern to complete the lived-in rustic look.

## Seamless Inside-Outside Style

When the entryway of a home features a sitting area, you can connect with nature and spend quality time with loved ones. Sometimes simplicity is key. Choose lighting that shares its glimmer inside while adding to the beauty and functionality of the outside porch that is nestled just off the front door. Rather than mounting a traditional outdoor wall sconce, hang a pendant like the Haddon hanging lantern to illuminate with nostalgic charm.

## Uplighting

Highlight or accent distinct plants, trees or accessories in your yard by positioning in-ground lights close to your focal point.

## Shadowing

Add an elegant, but mysterious, touch to your outdoor design with this effect. Shadow lighting is typically achieved with uplighting placed out of sight to create silhouette images of trees, plants, and accessories.

## Silhouetting

Produce an awe-inspiring effect by placing light fixtures directly behind your subject. Lights mounted near the bottom of a tree or shrub will cast the plant's shadow against the sky for an intriguing twilight display.

## Grazing

Grazing light is an effect that illuminates the outline of a particular tree, shrub or architectural feature to enhance its shape and texture.

## Design Tips

---

### Security Lighting

Decorative outdoor lighting designs can also add security features for your home. The majority of residential crimes take place after dark when thieves feel they cannot be seen.

### Path Lighting

Lighting along paths and driveways enhances the overall theme of your outdoor space while preventing accidents in the dark.

- Thermal protection in the primary circuit to avoid overheating.
- Resettable circuit breakers in secondary circuits for electrical safety and convenience.
- Weatherproof construction, powder-coat painted (P8522-31 and P8523-31).
- Stainless steel construction (P8519-01, P8520-01 and P8521-01).
- Easy open enclosure with KO's for hardwiring and photocell installation.
- Easy wire terminal board for secondary connections.
- For outdoor use.
- Plug in timer and photocell compatible, see below.

## Light Bright & Now

### with Lincoln

Mountain Modern style is all about clean lines and an uncluttered interior. With open layouts and tall ceilings, sweeping views command attention. Homes are big, bright and have a fresh aesthetic due in part to a more neutral color palette of whites, grays and blues. The design emphasis is placed on the building materials for texture like smooth glass, rough stone, chunky woodwork and textured concrete. Rather than covering up the details of the home, neutral colors

allow the textures of all the elements to shine as the building materials become part of the decor. Lighting can be oversized, with airy, open designs that are meant to cast light without obstructing views from the plentiful windows in the space.

# Edgelit Recessed LED

The LED edgelit recessed downlight combines a slim, low profile design with innovative technology, aesthetics, functionality and affordability. A separate recessed housing or junction box is not required for installation. The wet location listing allows for the product to be used in many applications, including showers. The low profile downlight is ideal for many residential, multi-family, commercial and hospitality applications. The detachable driver box can be removed from the fixture and mounted remotely when installing into shallow ceiling applications. The energy efficient design provides up to a 75% energy savings and up to 50,000 hours of LED life. The edgelit recessed luminaire can be dimmed down to 10%, flicker free, and is compatible with many forward phase (TRIAC) and electronic low voltage (ELV) dimmers.

## TRIM FEATURES

- Features a detachable driver box, which can be mounted remotely for shallow ceiling installations.
- White polycarbonate lens controls direct glare from LEDs.
- No housing or J-box required for installation.
- Wet location listed.
- 120V input voltage.
- Dimmable to 10% with many Triac or ELV dimmers.
- IC rated and Air-Tight.
- Energy efficient design provides up to a 75% energy savings and up to 54,000 hours of LED life.
- Energy Star and Title 24 JA8-2016 listed.

# Edgelit Recessed Accessories

Progress lighting has released two new accessories for the Edgelit Recessed fixtures. P860040-028 - 18" extender cable allows for the junction box to be remote and mounted further away from the fixture. P860044 - rough in accessory allows for Edge Lit recessed fixtures to be used in new construction installations. This accessory ensures a mounting location after the dry wall is installed and can be used when building codes require that the luminaire is supported from the building structure

# Emblem Round Recessed Trims LED

The Emblem Round LED recessed trim is ideal for use in both new construction as well as remodel/retrofit installations. Great for general ambient lighting applications. Offered in 4", 5" and 6" sizes and 4 finishes to match interior décor. The deep trim offers maximum glare control and the flat lens and bezel detail add a minimal and low profile look.

## TRIM FEATURES

- The trim is equipped with both Edison base adapter and quick link connector allowing easy installation in many standard medium based socket recessed housings and Progress LED recessed housings.
- A polycarbonate diffused lens reduces glare and pixilation from LEDs.
- Trim uses friction springs for easy installation into recessed housings.
- cCSAus Listed for Wet Locations, Energy Star.
- Flicker free dimming down to 10% with many Triac or ELV dimmers.
- Suitable for use in IC and Non IC applications.
- LEDs are 3000K, CRI 90+ and rated for 50,000 hours.

New Construction Air-Tight IC with E26 socket

### P831-AT

Ceiling opening: 4-1/2"  
Plaster frame: 8-3/8" x 13"  
Recessed depth: 7-1/2"

#### P831-AT HOUSING FEATURES

- UL and CUL listed for damp locations and feed through wiring.
- Meets WSEC code requirements.
- Adjustable from 1/2" to 2-1/2" ceiling thickness.
- Notched plaster frame for easy alignment.
- Locking feature to secure housing.
- Integral T-bar clamps.
- Nail grip bar hangers accommodate up to 24" on center ceiling joists.
- Rated for 8 #12 90° conductors (4 in/4 out).
- Integral Romex clamp.
- Trim mounted socket snaps into trim for consistent lamp positioning.
- Shipped in air-tight configuration.

New Construction Non-IC with E26 socket

### P830-TG

Ceiling opening: 4-1/2"  
Plaster frame: 7-7/8" x 10-3/4"  
Recessed depth: 5-1/2"  
Pryouts: 1/2" and 3/4"

#### P830-TG HOUSING FEATURES

- UL and CUL listed for damp locations and feed through wiring.
- Adjustable from 1/2" to 2-1/2" ceiling thickness.
- Notched plaster frame for easy alignment.
- Locking feature to secure housing.
- Integral T-bar clamps.
- Nail grip bar hangers accommodate up to 24" on center ceiling joists.
- Rated for 8 #12 90° conductors (4 in/4 out).
- Integral Romex clamp.
- Trim mounted socket snaps into trim for consistent lamp positioning.

Remodel Non-IC with E26 socket

### P832-TG

Ceiling opening: 4-1/4"  
Recessed depth: 5-1/2"  
Pryouts: 1/2"

#### P832-TG HOUSING FEATURES

- Retrofit version of P830-TG for use in existing ceilings.
- UL and CUL listed for damp locations and through wiring.
- Integral flange on housing and exclusive locking bars permits quick mounting in ceilings from 1/2" to 1" thick.
- Attached junction box with removable sides.

# Undercabinet

## Shining *Useful* Light.

### Which Hide-A-Lite™ Fits?

There are three primary types of HIDE-a-LITE™ lighting: puck, linear undercabinet, and tape. Puck lighting is spot lighting that focuses light to accent items and brings decorative character to a room. Linear undercabinet lighting evenly illuminates under the entire cabinet length. Tape lighting is flexible and can be used where space is limited, or where longer lengths of light are needed.

### Quick Tip

Most rooms will need a combination of some or all of these types of task and ambient lighting. Begin by assessing the size of the space.

### Linear Undercabinet

Pick linear undercabinet lighting where even illumination and high light levels are desired. It comes complete with 120V direct wire application, eliminating the need for remote power supplies or conversion boxes, and an on-off switch for easy access task lighting.

### Puck Lights

Puck lighting is used to create focused lighting effects that highlight decorative elements. Puck can be used inside and underneath cabinets when a spot or targeted light distribution is desired.

### Tape Lights

Available in various lengths, tape lights can be cut to fit a specific size. Its length, low profile, flexibility for navigating curves, and adhesive backing that sticks to many surfaces makes it ideal for use in hard-to-light areas.

# Linear Undercabinet LED

HIDE a LITE™

The HIDE-a-LITE™ Linear undercabinet series provides the ideal solution for residential and light commercial applications. The luminaire is constructed from an aluminum housing and features a lens designed to optimize light distribution, ensuring for proper illumination of the work space below. The HIDE-A-LITE linear undercabinet utilizes a through hole mounting method to allow for an easy installation. The luminaire can be direct wired, removing the need for separate cords. Two armored cable fittings are included with the product for applications requiring the use of armored cable. An on/off switch is located on the front of the luminaire, allowing for easy access when used as a task light. The energy efficient LEDs can be dimmed down to 10% with many forward phase (TRIAC) and electronic low voltage (ELV) dimmers.

# Tape Undercabinet System LED

HIDE a LITE™

LED Tape provides lighting to enhance aesthetics, while also aiding in tasks around the home. Common applications for LED Tape include; undercabinet lighting in kitchens to add illumination to work surfaces, highlighting back splashes in kitchens or bathroom areas and adding toe kick lighting at the bases of cabinets for dramatic and functional lighting.

## Follow Five Simple Steps:

### 1. Choose Tape Length

12", 60" and 240" lengths to meet different sized projects and features an adhesive backing for easy application to desired surfaces.

Flexible tape can be cut every 4 inches (cut ends can be reconnected, allowing for full use of LED tape).

Tape is fully enclosed in silicone to allow for use in damp location. 24 VDC tape pairs with 24 VDC power supplies.

# Foyer Sizing Guides

## Foyers

The rule of thumb is to accommodate 2.5 - 3 inches of chandelier height for each foot of ceiling height.

### 9' - 10' Ceiling

Hang a fixture using a guideline 7-to-7.5 feet should proceed sufficient results.

### 11' + Ceiling

Divide the vertical space into thirds, positioning the fixture(s) two-thirds of the distance from the floor, so that the ceiling height does not overwhelm the space. If the foyer is large and has a high ceiling, it's recommended to choose a slightly larger fixture than formulas suggest.

*\*Note confirm that light doesn't interfere with door swing. If it does, place it further back.*

# Dining Sizing Guides

## Dining

The table under the fixture should serve as a guide for selecting the right fixture for your space. To calculate the correct width, start with the width of your table and subtract 12". (For example, if your table is 42" wide, your chandelier should not be more than 30" wide.)

Based on an 8' ceiling, your fixture should hang between 30"-36" above the table.

## Dining Sizing Recommendations

ROOM WIDTH (smallest rm. dimension)	Fixture Width		ROOM HEIGHT	Fixture Height
	Max.	Min.		Max.
10'	30"	See Notes Below	8'	24"
11'	33"		9'	27"
12'	36"		10'	30"
13'	39"		11'	33"
14'	42"		12'	36"
15'	45"		13'	39"
16'	48"		14'	42"

18'	54"		16'	48"
20'	57"		17'	51"
21'	63"		18'	54"

*Minimum Width Recommendations:*  
Add width of room + length and use this number as inches

*Note: For 10'-0" ceiling heights or below, fixture should not exceed width of table less than 12".*

## Dining Mounting Recommendations

Ceiling Height	Distance from bottom of fixture to table surface
8'	30"
9'	33"
10'	36"
11'	39"
12'	42"
Above 12'	Fixture should be mounted more in relation to the room than to the table

# Kitchen Sizing Guides

## Kitchen Pendants

Start the row 12"-15" in from either end of the island and then space the pendants evenly within that span.

Space pendants around 24" - 30" apart from one another (depending on style & quantity).

Pendants should be at least 10" smaller in diameter than the width of the countertops. Consider the rule of odd numbers (unless using oversized fixtures).

Keep 30"-36" of space between the countertop and fixtures.

- 8' island = 96"
- $96'' - 24''$  (12" from ends of island) = 72"
- $72'' - 24'' - 24'' = 24''/3 = 8''$  diameter max. (spaced 24" apart from each other)
- $72'' - 30'' - 30'' = 12''/3 = 4''$  diameter min. (spaced 30" apart from each other)

# Bath Sizing Guides

## Single Bowl Vanities

Position fixtures on both sides of the mirror to provide shadow-free lighting for your face. Ideal width is at least 28" apart and centered 66" above the floor, depending on mirror size and ceiling height.

## Task Lighting

Center recessed downlights 24" to 36" between where the face and the mirror are at the vanity to eliminate shadows.

## Vanities With Two Sinks

Consider mounting two separate fixtures, one above each sink. They should be approximately 75"-80" above the floor.

# Outdoor Sizing Guides

## Front Door - Wall Lanterns

For a front door with two lanterns, the lantern height should be approximately 1/4 the height of the door. Front doors with one lantern should be approximately 1/3 the height of the door. Mount lanterns approximately 66" above floor for accurate lighting effects.

For a door that is 96" in height, multiply the height by .25 to get 24" for the suggested height of each fixture.

## Front Door - Hanging Lanterns

For a front door with a hanging lantern, the lantern height should be approximately 1/5 the height of the door.

Hanging lanterns are hung using chain or stems connections, so be sure to consider the additional length of the chain or stem. The hanging lantern should not hang below 7' from the ground, including the fixture, chain and stem.

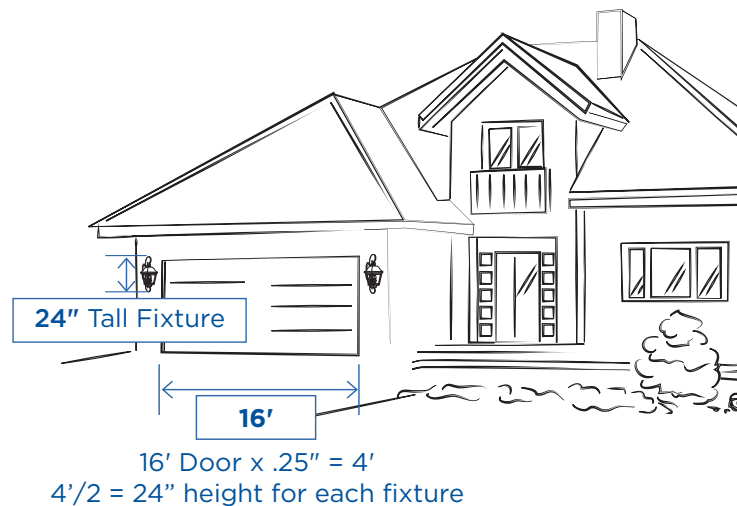

Allow 6" minimum clearance from the bottom of the lantern to the top of the door to allow the door to open and close. If there is not enough clearance, consider using a flush mount outdoor fixture. the height of the door.

## Garage - Wall Lanterns

If you are installing two or more wall lanterns on the exterior of your garage, the lantern height should be approximately 1/4 the height of the door. For installing a single wall lantern, the height of the fixture should be approximately 1/3 the height of the door.

For a garage door that is 16' in height, multiply the height by .25 to get 4'. Divide 4' by 2 to get 24", which is the suggested height of each fixture.

Products referencing this logo meet the energy efficiency requirements for light fixtures set forth in ENERGY STAR® product specifications. Please refer to [www.energystar.gov](http://www.energystar.gov) for specific product qualifications and list of certified products.

Please note indoor only (dry location) fans should only be used indoors. Even if an outdoor area or screened-in porch is covered, the motor and the blades can be affected when exposed to humidity. You can, however, “bring the outdoors inside” – as using outdoor ceiling fans are perfectly acceptable to use in interior spaces.

If you are selecting a ceiling fan for a space that is outdoors and under a roof, i.e. any covered porches; you should select either a damp rated or wet listed fan. Damp location fans may also be used indoors.

If the fan comes directly into contact with water, you'll need to ensure that the ceiling fan has a “wet” listing. Ceiling fans designed for damp or wet locations feature elements, such as moisture-resistant motors and all weather blades. Wet location fans may also be used indoors.

This marking indicates fixtures that have an integrated LED or replaceable LED module that has been tested and listed in the California Appliance Database. Check for certified lamps, fixtures or LED light engines by searching the MAEDBS database. Go to [cacertappliances.energy.ca.gov](http://cacertappliances.energy.ca.gov)

Table 150.0A defines products that do not have to meet JA8 and can be used to comply with 2016 Title 24. The most common types include:

- Pin-based linear or compact fluorescent light sources using electronic ballasts
- GU-24 sockets containing light sources other than LEDs
- Inseparable SSL luminaires that are installed outdoors

Products comply with the California Appliance Efficiency Regulations. Certified products are listed on the appliance efficiency database found at [www.appliances.energy.ca.gov](http://www.appliances.energy.ca.gov).

Products with this icon are Dark-Sky Friendly: they are certified by the International Dark-Sky Association to minimize glare while reducing light trespass and skyglow (they don't pollute the night sky.)

Every effort has been made to ensure the accuracy of information in this catalog. Progress Lighting reserves the right to make product changes from time to time, without prior notification, which may change the information provided in this catalog. Errors brought to our attention will be corrected in subsequent issues.

UL, CSA, or ETL Listed or Classified unless otherwise noted. Bulbs not included with fixtures unless specified. Specifications subject to change without notice.

Metal finishes not specified as "solid" have quality plated or painted finishes.

Finish representations are high resolution digital reproductions, and, while every effort has been made to render colors accurately, they may vary slightly from the actual product, especially hand-painted finishes, due to the nature of hand craftsmanship.
